AI4Europe TGB Meeting
23.09.2022

Agenda

- 10:00 - 10:15 Status report of playground beta test and Eclipse Graphene release (Martin)

- 10:15 - 10:30 Presentation and Live Demo of a AIPLan4EU Pipeline in the playground (Uwe)

- 10:30 - 11:00 ICT-38 catalog access for both sub-systems: AI4EU Experiments and Drupal Portal

- Next Meeting 25.11.22

Eclipse Graphene

- **All** repositories have been moved to Eclipse Gitlab
  - https://gitlab.eclipse.org/eclipse/graphene
- Github repositories have been set to archive (read-only)
- Now Independent from Linux/Acumos Infrastructure
- First Graphene release request planned until end of September
- Installation and Database have already been ported to Graphene
- Portal is next (and last)

Playground Beta-Test

- Stability is now good
- AI4EU Experiments Prod System has been connected to Playground
    - some "old" pipelines do not work
    - ➔ we started adding the tag "playground" to the working pipelines
- Beta-Test will continue through October

AI4EU Experiments Federation API

- The published ai-models can be accessed via the Federation API

- Each client gets its own SSL certificate for authentication

- RESTful API with JSON data representation

- Swagger API Documentation: https://github.com/ai4eu/Technical-Governance-Board/blob/main/Meeting-2022-01-14/federation-api-swagger.pdf

- The interface is bi-directional
